## BOLSTERING THE HOME FRONT

"We are excited to announce the acquisition of a Lancaster, PA Legacy Quick Lube Shop for Bob Stadel! This location has been open for 30+ years with various owners over the years and we are excited to be part of it's rich history, and being able to serve the community of Lancaster. Here's to Bob's Business and his success!" - Brandon C

## Costa Oil Returns to NASCAR

Ryan Ellis will pilot the #43 Chevy under the primary sponsorship of Costa Oil - 10 Minute Oil Change for two races in 2024.

The first race will be in Martinsville April 6th, followed by another primary in Dover DE on April 27th.

Inquire about attending the race with the team! [hq@costaoils.com](mailto:hq@costaoils.com)

Costa Oil - 10 Minute Oil Change is excited to announce the opening of a new location in Lancaster, PA, further strengthening our presence in Central Pennsylvania. This new facility underscores our commitment to providing fast, efficient, and professional oil change services to more customers within the region.

Conveniently located to serve both new and existing customers, this expansion is part of our ongoing effort to enhance vehicle care and maintenance across the area. We look forward to welcoming motorists to our latest location, where they can experience the quality and speed that Costa Oil is known for. Join us in celebrating this new chapter as we continue to drive forward in serving the Central PA community.

Costa Oil Peachtree City received a 5 star review. "Honestly, this place is a true gem. The service was thorough but fast. The manager and mechanic were extremely informative. I brought my Mercedes Benz to get an oil change and they provided me with a full service check, the mechanic also managed to turn all my sensors off. I appreciate you both and I look forward to doing more business with you all."

## QUICK LUBE NEWS

Ford is recalling 42,652 of its Bronco Sport and Escape vehicles in the U.S. due to the risk of a fuel leak and fire, according to CBT News.

The National Highway Traffic Safety Administration (NHTSA) announced this past Wednesday that Ford would be recalling the vehicles due to damaged fuel injectors prone to leaking and causing a fire.

The recall follows a recent investigation launched by NHTSA's Office of Defects Investigation (ODI) unit after receiving 31 complaints from Ford Bronco owners that detail vehicles losing automotive power and experiencing electrical system failure.

According to NHTSA, Ford is actively working to remedy the damaged fuel injectors involved in the current recall. Dealers will install a drain tube and upgrade the engine control software to detect fuel injector leaks.
